THE STATE ELECTIONS.

RESULT OF TUESDAY'S CONTEST FOR SUPREMACY AT THE POLLS.

The Republicans of Ohio Elect Their Entire State Ticket, While the Democrate Score a Like Victory in New York-The Result Elsewhere-Comments.

COLUMBUS, O., Nov. 10 .- Last night was one of the wildest ever known in this city. The people apparently were beside themselves. Republican returns were received at the city hall. About midnight it was announced that the state committee claimed the state by 25,000 piurality, but this was revised about 1 a. m. to 30,000 and 35,000. The committee insists that this is a conservative claim in view of the fact that the returns indicate a plurality of 32,000.

Governor Foraker sent a telegram to Whitelaw Reid, of the New York Tribune, estimating his election by 30,000 and a Republican majority in both houses.

The Democratic committee claim that they still have a chance on the general assembly and that the returns do not warrant the claim of the Republicans that they will

have a working majority.

Chairman Dungan, of the Democratic state executive committee, was seen at 1 this morning before retiring, and conceded their defeat by about 15,000. He claims his estimate of a plurality of 4,300 for his party was very conservative, and was based on the best information obtainable from correspondents in every school district in the state. He spoke of the campaign as one of the hardest ever fought in the state, but the fates were against victory for Democracy.

Chairman Cappeller, of the Republican state committee, has sent out the following bulletin: "Foraker's plurality is at least 25,000. The legislature is Republican in both branches. This is a great victory of Republicans over the sectionalism of the solid south, of the purity of the ballot over frand and forgery, of the wise and economic management of the state affairs over reckless extravagance, to all of which should be added the personal popularity of Governor Foraker and the brilliant and remarkable campaign that he made in the state against boodle and the influence of the national administration.

The latest returns from Cincinnati and Hamilton county shows Foraker's election by over 6,000. He ran almost even with his ticket. Thomas E. Powell ran ahead of his ticket, showing the effects of the arrangement by which Seitz was slaughtered by his Union Labor friends. The balance of the Union Labor polled a heavy vote, almost equal to the Democrats. Elwin Stevens, for treasurer did not run, we wall for treasurer, did not run as well as was expected. The Prohibitionists polled a very light vote. Every office in the county was

bagged by the Republicans.
Governor Foraker was waited on about midnight by a large crowd who had just left the city hall. In response to cries for a speech, the governor said: "I thank the Republicans of Ohio for this magnificent victory. A majority of 30,000 as we have to-night will teach Grover Cleveland, Governor Gordon and the balance of them that will have no more Southern Confederacy in this country. It will also teach Republicans that in order to be Republicans and be victorious they must come out flat-footed and declare themselves in no uncertain manner for human rights and human liberty. The vote to-day shows that we have no mugwumps in Onio, and, what is more, we never will have any. My fellow citisens, I again thank you."

Cleveland Goes Republican. CLEVELAND, O., Nov. 10.—The Republicans are wild with delight. They had not given up hope of carrying the county, but they thought that the contest at the polls, would be very close. They worked as they seldom worked before, and as a result the entire Republican ticket in this county has received a plurality of between 2,800 and

In New York

NEW YORK, Nov. 10. - The voting in this city resulted in a complete victory for the combined Democracy. For the various state tickets about 215,000 votes were cast, Of these, Cook, the Democratic candidate for secretary of state, received 107,761; Grant, Republican, 57,949; George, United Labor, 36,367; Hall, Prohibition Labor, about 6,000, and the ballots for the Prohibition candidate and the scattering votes make up the remainder. The plurality for Cook is therefore 49,81%

The entire local ticket of combined Democrats was elected by varying pluralities. The vote on district attorney shows a plurality of Col. Fellows over Mr. Nicoll of 22,137. The United Labor caudidate for district attorney, Louis F. Post, polled about 4,000 votes less than Mr. George. Rellows ran about 32,000 votes behind the

Democratic state ticket. Perhaps the most remarkable result of the entire city election was the breaking up of the Labor vote. This year Mr. George re-ceived not much over one-half of the vote which he obtained last year, when he ran for mayor. The Labor vote, it is believed by many, was diminished by the opposition of the Catholic church on account of Dr. McGlynn's affiliation with the George

The only Republican candidate for state senate elected in this city, was Cornelius Van Cott, in the Eighth district. Three Republican assemblymen were elected Bankson T. Morgan, Ernst H. Crosby and

Robert Ray Hamilton. Returns from 1,000 election districts outside of New York and Kings county give Col. Grant, Republican, 183,781; Cook, D m crat, 163,221; Huntington, Prohibition, 17,624; George, United Labor, 9,832, These returns, coupled with others, point to a Democratic victory by from 10,000 to 15,-1,087 are in New York and Kings county. and in these the Democratic plurality is 55,000.

The returns from the state are not yet complete, bu enough have been received to indicate that the senate and assembly remain Republican.

The present senate stands as follows: Republicans, 20; Democrats, 12, The next senate, according to our present figures, which are not complete, will stand as follows: Republicans, 19; Demo-

The present assembly stands as follows: Republicana 7a; Democrats, 54 The indi-cations are that this majority of 20 will be

somewhat reduced.

The Sun prints the following telegram from ex-Speaker Samuel J. Randall at Philadelphia: "Philadelphia elects a Democratic sheriff and comptroller by 5,000 and 18,000 majority respectively. Pennsylvania over 10,000 Republican majority as an estimate at present; last year 43,000 Republican majority. We rejoice over New York state, city and Brooklyn. It settles the future."

Interest Taken at the Capital. WASHINGTON, Nov. 14-The elections caused quite as much interest in Washington as those occurring in presidential years. Ordinarily the Washington populace only grows enthusiastic when a president is to be elected. All night and until early morning every place where news was available was crowded. Thousands of persons lingered in front of the white screen where bulletins were displayed at the Post building until long after midnight. The Jefferson and Columbia clubs' headquarters were scenes of the most pronounced interest, and at the rooms of the United Press government officers, newspaper correspondents and other public personages were entertained

with the latest information up to 3 o'clock. At the executive mausion the president, Col. Lamont and Secretary Fairchild received copies of the returns from the respective press associations and also from the telegraph company. The result in New York was very gratifying to them, and it was not until nearly 2 a. m. that Col. La-mont gave good night. The general management of the United Press in New York where the returns were received and compiled before being distributed, was highly complimented by public officers here for the very thorough, intelligent and prompt manner in which the news was handled, it being frequently stated that never before have election results been obtainable so early in the evening.

Bakota Wants a Division.

Sr. Paul, Nov. 10.—The vote in Dakota was very light yesterday except in the larger cities, where the local option question brought about a not fight. The vote on the division of the territory was largely in favor of "two states." The "one state" forces lacked organization and at many poliing places it was necessary for those who desired to vote against division to write their own tickets. The farmers are generally opposed to division, while the citizens of towns and cities favor it.

In Maryland.

BALTIMORE, Nov. 10. - Tre full city vote for governor is as follows: Jackson, Democrat, 34,587: Brooks, Republican, 27,834; Baldwin, Prohibitionist, 1, 159. The advices from the state indicate the election of Jackson by 12,000, and the defeat of the constitutional convention. The Republicans show large gains on the eastern snore and in western Maryland, and the Democratic majority in the legislature will not be more than 40, against 85 two years ago.

New Jersey Goes Republican. NEW YORK, Nov. 10 .- The Sun says that returns from New Jersey this morning make it certain that the Republicans have mators, thus holding control of the senate, and have also made large gains in the assembly, which will put that body in their hands. This insures the election of Republican successors to State Comptroller Anderson and State Treasurer Toffey, both Republicans.

In Pennsylvania.

PHILADELPHIA, Nov. 10. - Returns indicate a Republican majority of 20,000 in the state. The fight in this city has been between the Personal Liberty league, Demo-cratic, and Republicans and ministers, who joined forces to prevent the carrying of the city by those "desecrators of the Sabbath,"

Senator Riddleberger's Successor.

RICHMOND, Va., Nov. 10. -The state went Democratic, even Senator Riddleberger's county changing from Republican to Democratio. The Democrats have a majority in the state assembly, which is equivalent to the election of ex-Congressman Bar-bour to the senate as Riddleberger's suc-

Governor Ames Re-Elected. Boston, Nov. 10. -Oliver Emes, the Republican candidate for governor, is believed

to be elected by nearly 17,000. The Republicans have also gained several senators and a dozen or two representatives. In some districts the fight was very hot. Prohibition Defeated in Oregon. PORTLAND, Ore., Nov. 10.-The Prohibition amendment was defeated by from 9,000

to 12,000 majority. In Portland the majority against it was 5,000, and it is believed that but two counties favor the "water movement." In Rhode Island. PROVIDENCE, R. I., Nov. 10. - The post-

oned election of representatives to con-ress from the second district resulted in a publican victory. Warren O. Arnold, their candidate, has a plurality of 888.

Nebraska Goes Republican. OMAHA, Neb., Nov. 10. - The state election was quiet, and resulted in the election of the Republican ticket by 20,000.

THE WAY THEY VIEW IT.

Results of Tuesday's Elections, as Seen

Through Partisan Glassos. CINCINNATI, Nov. i0. - The Commercial-Gazette says editorially: "In Ohio the Republicans have not apologized for Republican principles or dallied with the fringes of things in the hope of picking up a few Mugwumps, but they have declared the whole gospel. When the broad banner of the Confederate bloody shirt was flaunted in the solid south they did not consider is alarming to unfurl the old flag of the free, and to set the bird of glory flying; and it is all right.

"The one thing that seems to be settled in New York and Massachusetts elections is that the Mugwumps are no more. They did not dare to show themselves in Massachusetts, and disappeared from the face of the earth. They will probably pretend that they voted the Republican ticket, but it does not make an appreciable difference what they vote. The Republicans gain

The Republican defeat in New York counts for Cleveland's nomination by his party for a second term, but he will have to run as a rough-and-realy Democrat of the hungry and thirsty kind, such as the Mugwump: call spoilsmen; and if the Republi-cans will fight their battles in New York as we fight them in Ohio, we shall a year from to-day elect a Republican president."

The Enquirer editorially says: "Outside of Onio it seems to be a Democratic sweep. Fellows is handsomely elected in New York city, and the state ticket gets through by something like 20,000.

"Maryland is Democratic by not less than

12 000. "In Philadelphia, the scene of a most excited contest, in which the Sunday question played a prominent part, the Democrats win by a plurality of not less than 7,000.

"Virginia gives a grand Democratic victory, defeating Mahone and all his recalcit-"Altogether the result of the day's work

tends to the glory of the Democratic cause."

Comments of New York Papers. NEW YORK, Nov. 10 .- The world says editorially: "Mr. Fellows is elected district attorney. The power of the combined machines, with party passion and party fury, has proved too strong for what we believe to have been an honest and right protest of the jublic conscience. The great discrepancy between the vote that Henry George expected and the vote he actually gets in the state ought to convince him that he made a mistake in placing the stress of his appeal upon his preposterous land tax

"The result of the election in this state settles three points as thoroughly as any political event can be settled in advance: "President Cleveland will be renominated by his party.

"Mr. Blaine will not be renominated by the Republicans. "Mr. George will not control the election

next year. "New York is the pivotal state. Mr. Cleveland's friends have had a complete triumph. They are entitled to the fruits of the victory. Grover Cleveland is, indeed, lucky man, and James G. Blaine may be said to be a dead cock in the pit."

The Sun says: "The Democrats carried New York yesterday by a fine majority.
The treacherous combine of Pulitzer and Platt was beaten. The Republicans lost heavily to the Prohibitionists, who have made gains, especially in the western part of the state. The George vote in the country districts was light, and it was much lighter than was expected in this city and Brooklyn. The Progressive Labor vote was small. Due credit for the conesion and confidence that brought about the giorious resuit of yesterday should be given to Grover Cleveland, whose manly an i sensible letter was as timely as it was wise,"

What Henry George Says.

New York, Nov. 10.—Henry George says the United Labor party has met its Buil Run, not its Waterioo. Victory in the end is certain. The result proves that there are 85,000 men in New York who cannot be seduced away from a principle.

A FATAL BRIDGE ACCIDENT.

Fall of a Structure Spanning the Maumes. Twelve Men Injured.

Tolebo, O., Nov. 10 . - At + o'clock Monday afternoon the bridge across the Maumee, at Waterville, fell with a loud crash, carrying down with it a dozen men. Only ten minutes before the accident the dozen men employed by John Snyder, of Defiance, the contractor wao has a contract with the county commissioners to tear down the rotten structure, commenced their work with axes and saws. A few blows weakened the timbers and prepared the way for the terrible accident. The span which fell was 170 feet in length. The timbers were thrown and scattered in every conceivable manner and shape. When the men felt the bridge sinking with them they tried to escape by running, but could not succeed in getting off from the falling structure, and were

thrown a distance of fifty test or more. The first man fished out from the debris was John Jeffers, of Ironville, aged thirtyfive. His legs were broken and his back crushed. He died shortly after being removed to the village. It was a sad sight to see his wife and three children, who are dependent upon him for support, when the accident was announced. Mrs. Jeffers is completely prostrated by the shock.

Byrne Burds was injured in the head and shoulders. His skull was crushed in and he may not recover. He lives at Mau-C. E. Roland, of Grand Rapids, sustained severe injuries to his hips and shoulders.

His injuries are severe, but may not prove The others who are injured are Henry English, Al Colwell and J. Showers, and one workman whose name could not be learned. They will probably recover, although all have sustained very serious in-

Fell On a Red Hot Stove.

CINCINNATI, Nov. 10. - Maggie Scott, four-year-old child, living with her parents at 183 West Third street, was badly burned about 6 o'clock last evening. She was standing on a chair in the kitchen looking at her mother, who was cooking supper. The latter left the room for some purpose and while she was absent the girl reached over to look in a pot, and losing her balance fell over the red hot stove. The mother heard the child's cries and ran into the kitchen, finding the little one lying on top of the stove on her stomach. The mother. who became frantic at the sight, snatched the little girl from her horrible position. She was frightfully burned about the chest and abdomen, the flesh being literally roasted and falling to pieces. Dr. McGuire was called in and did what he could to alleviate the sufferings of the little one. He pronounced her condition very critical, with little or no hope of recovery.

CINCINNATI, Nov. 10. - John Dubois, aged eighty-two, a pioneer resident of Madison-ville, and father of Wilbur Dubois, of the postoffice, died at his home this morning from the effects of being thrown from a wagon several weeks ago. Mr. Dubois was well known in Cincinnati, having been engaged in the flour commission business here many years ago.

WHAT IS LIABLE TO OCCUR AT THE COMING SESSION.

A Struggle Promised for the Labor Vote. What Shall Be Done With the Treasury Surplus? - A Compromise Proceeding May Answer the Question-Notes.

WASHINGTON, Nov. 10. - Now that election is over, the members of congress begin to come in. As they arrive they discuss the coming session and its probabilities and duties. They are all agreed upon one thingthat it is to be one of great political activity. The various party managers and party forces are doubtless to play a very active and important part in the operations of the session. From the very start there is to be a struggle.

The maneuvers for party advantage, always numerous and carefully planned, will be more than usually numerous and more carefully planned than usual. There will be not only the fight between parties. but the struggle to capture the labor vote, the temperance vote and everything else of this character.

One fight with which the session will begin will be that for the seat of Carrisle. The Labor people are thoroughly determined in the support of Tnobe, and the Republicans are, of course, encouraging them in it.
They see in it, if admirably managed, opportunity to create intense feeling against the Democratic party among the members of the Labor party, which Thous represents. There is a strong disposition on the part of the Republican leaders to support Thobe in his contest, in the hope that such a course may bring the labor element closer to the Republican party. The Democrats, of course, see this, but just how they can go back on Mr. Carlisle, their leader, to keep friendly with the Labor party, they do not understand.

As to the real work of the session. Of course the subject to be most prominent is, how to get rid of the surplus. The accumulations of last month are sixteen millions. and go on piling up month after month. "Wnat will be done with this question?" 15 is something that every member of congress asks, and none can answer. Some of them express the belief that a tariff reduction measure may pass. A large proportion, however, ... of opinion that a compromise measure, removing the topacco tax and making a siight reduction in the tariff may be the best thing. Indeed, if the friends of a reduction on tobacco stand together in demanding this they will be able to secure, it.- Unless this is granted them it looks as though there might be a repetition of the experiences of last congress on this question. It seems, however, that the necessities of the case must push congress into some action this time, for the surplus revenue goes on piling up at the rate of haif a million a day. Either the revenue must be reduced or the treasury department authorized to pay is out in some way.

It is not improbable that congress, when it meets and finds a clamor for a means of getting the money out of the treasury, may authorize the purchase of bonds mium as a temporary relief, for of course that body would not feel equal to the task of acting promptly on the revenue reduction

question. A strong effort will be made this session to restore to the various states the war tax paid by them. A decision of the supreme oourt a few days ago restored to the states of Louisiana, Mississippi and Alabama certain funds due from sale of swamp lands, which funds had been withheld and credited against the unpaid war tax of those states. There have now been three decisions of the highest courts which have restored to the southern states a portion of the money which had been withheld from them upon this tax account. Now that the courts are restoring to the southern states the little share of the war tax which the government had pressed from them the demand for a return of the tax paid by the northern states will be renewed, probably with suc-

It is evident that a hard fight will be made in favor of a government telegraph system, but not so certain that it will be successful. On the contrary, the indications are that the addition 50,000 government employes to the already large list of those under party controi in the government service may induce the ambitious statesmen to content themselves with an inter-state telegraph bill, which shall control rates to a certain ex-

Of course, there will be the usual flood of worthy and many unworthy measures, which of course will go the way of all such measures in other congresses. There will doubtless be a good-sized river and harbor bill, and there will be a fight for goodsized appro riations all around, in view of the plethore in the treasury.

Our Toy Soldiery.

WASHINGTON, Nov. 10.-Adjt. Gen. Drum, in his annual report to the secretary of war, states that the steadily increasing interest manifested by the militia of the states is evidenced by the high percentage of attendance at the annual encampments and the generally excellent military spirit of the troops. With the liberal increase of the appropriation made at the last session of congress for the benefit of the militia, is is earnestly hoped that the state military authorities will, by an increased allowance of ammunition, foster and develop the efficiency of the rank and file in target firing.

He recommends the establishment during encampment of an officers' school for instruction in battalion drill and the administration of a post, He also suggests the advantage of holding weekly, during the winter months, a non-commissioned officers' school (the captain as instructor) for instruction in company drills, the duties of guards and soutinels, and the administration of a company. Young officers of the army could be spared during the winter to report to the adjutant generals of states, on application of governors, to aid instruction of both officers and non-commissioned

The Triumph in New York. The "battle of the ballots" is ended for this year, and the Democrats have got the best of it by long odds.

New York was the real scene of action. The fighting was done there. All eyes were centered on the Empire Stave, and the Republicans are surprised at their everwhelming defeat.

With so many tickets, so many. "unknown" elements in the contest, and with some of their leading journals opposed to their nominees the Democrats were at times doubtful as to the result. The Republicans were confident in proportion as the Democrats were disheartened. But the clouds have cleared away, the fight has been made, and the Democracy emerge from the smoke of the batthe with victory perched upon their banners. They are left in fine trim for the National contest next year, and the outbook for the future is bright.

Commenting upon the result in New York the Washington City correspondent of the Cincinnati Enquirer says: "The Empire State is looked upon as sounding the bugle for the battle of 1888, and the victory there assures five years more of Democratic administration as at present constituted in the United States. The contest in New York has been fierce, the vote large and the triumph signal.

"The Republican ticket was strong. The Republicans could have done no better than to make Colonel Grant their leader. Leading Democratic papers freely conseded the great strength of the opposing candidates. It would have been as much of a surprise for Ohio to go Democratic as for Virginia to go Republican.

"The result in New York emphasizes the position of the State as the great Presidential pivot, and indicates plainly where it will be found a year hence. New York will carry with it New Jersey and Connecticut, which are substantially outlying precincts, but which, nevertheless, east electoral votes for themselves.

"Democratic success in New York this year also assures Indiana to the Democracy in 1888, and will have a commanding influence with Michigan and Wisconsin, and probably wheel Massachusetts into the vic orious column.

"The New York election was the most important preliminary battle of the Presidential campaign, and the result is an almost unassailable promise of continued Democratic ascendency, and the Republican nomination for President is likely to go begging."

AFTER all the Ohio Republicans did not do much better than they expected.

THE real object which General Henry R. Jackson had in making that "secesh" speech a few days ago down at Macon, Ga., is known at last. His remarks were uttered to injure Cleveland for recalling him from that appointment in Mexico. But Jackson is looked upon with as little favor in the South as Foraker is in the North. In alluding to this matter in a speech the other day that noble old Roman, Hon. A.G. Thurman, of Ohio, paid his respects to Mr. Foraker in the follow-

ing strong language: I venture to say that Joseph B. Foraker-if that is his name—I venture to say that that man has been doing more for the last three months to make sece-sion, to make disunion, to separate this great Republic, than all the utterances that all the Jacksons that ever wore that name made.

Senator Thurman's remarks were loudly applauded. They express the sentiment of the honest-thinking people of the country.

Don't Experiment.

You cannot afford to waste time in experimenting when your lungs are in danger. Consumption always seems, at first, only a cold. Do not permit any dealer to impose upon you with some cheap imitation of Dr. King's New Discovery for consumption, coughs and colds, but be sure you get the genuine. Because he can make more profit he may tell you he has something just as good, or just the same. Don't be deceived, but insist upon getting Dr. King's New Discovery, which is guaranteed to give relief in all throat, lung and chest affections. Trial bottle free at the drug stores of J. C. Hanged Their Men for Spite. CHARLESTON, W. Va., Nov. 10.—In an interview with the sheriff of Jackson county; who lives near the section of Roane county where Rev. Ryan was murdered last mentl he said that the men who lynched Coon and Duffs composed a gang which has been fighting the Duffs for years, owing to the fact that they assisted the United States marshal in making arrests to break up the moonshiners, to which it is alleged that the lynchers belong. Every effort is being made to bring the lynchers to justice, and the people are divided into two factions. The impression in Roans and Jackson counties is that Ryan was murdered by others than they who were lynched. There is one thing certain, and that is there is a great mystery about the whole affair.

A County Without a Court House. SUMNER, Ill., Nov. 10 .- The supreme court decision reversing Judge Jones' ruling in the Petty township case causes great excitement in Lawrence county. Its origin was an attempt to build a new court house in Lawrenceville. Last fall's election included a proposition to issue bonds. The returns from Petty township consisted of merely the blank form. The township was thrown out by the circuit court deciding the election in favor of the bonds and unseat ing Adams, the county clerk. Mexor and Police Confident of the Olty's Safety-Lings and Parsons Issue Manifestoes-No Excitement at the Sall - Other Incidents.

CHICAGO, Nov. 10 .- All is quiet about the building, and little excitement is felt the Anarchists' cases. The mayor and police are silent regarding their intentions, ay occur. Chief Ebersold said that he had men on guard at the telegraph department and at various other places which he not care to mention. He has held Yarious conferences with Mayor Roche, but m what subject could not be learned.

The police are very reticent as to their ans and movements, for the reason, they laim, that their intentions might be defeated if exposed. They express every confidence in themselves, however, and state that they feel fully able to cope with any-thing which may transpire. Mayor Roche said, when spoken to in regard to his part in the matter of keeping order, that he nad nothing personally to do with the question, but he had ordered the heads of the departents to report to him events as they transpired. He thought that it did not behoove dim to express any opinion upon the question, as it might have an effect on the people not intended. He was kept aware, however, of passing events, and would do all in his power to preserve order.

Sheriff Matson said that if he did not hear from the governor soon he would begin ar-

all arguments that have accompanied former pleas for the governor's interference. Lingg, Engel, Fischer and Parsons are still resolute, despite the protestations of their wives and sweethearts.

The sheriff is evidently not pleased with the prospect of the ghastly business before him, and he looked as solemn as a Dominican monk during the time he was giving the details of the nerve destroying prepara-tions. But the sheriff has plenty of American pluck, is far from being chicken bearted, and will do his duty without flinch-

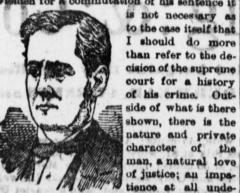

Lingg, the condemned bomb maker, has written a manifesto, which he intended to be published after his death, but which has fallen into the hands of the reporters. In it he says that he realized fully that he and the other condemned men could have been saved if they had asked clemency, but he st be served by their death. "Unless la-ring people can get their rights by legis-tion," he says, "revolution is not far dis-nt. The hanging of the condemned may

tani. The hanging of the condemned may be regarded as murder, and in that case it will the somer result in the overthrowing of the tyraute of capital and monopoly."

Rarons has also issued a statement, but it contains nothing bearing on the question of cismency nor of the execution. It is a recital of his connection with movements for the improvement of the condition of the workingmen, particularly the negroes, and his reasons for adopting this course through the It is addressed to Schilling.

Judge Gary's Interest in Fielden.
Campage, Nev. 10. Judge Gary has intructed to Mr. Johnson, who has taken the tead among Fielden's former employers in securing elemency for him, the following

"CHICAGO, Ill., Nov. 8, 1687. The Hon. Richard J. O.Assby, Governor, Etc. "DHAR SIB-On the application of Samuel Welden for a commutation of his sentence it

JUDGE J. E. GARY. served suffering; an impulsive temper, and an intense love of and thirst for applause of his hearers, made him an advocate of force as a heroic rem-edy for the hardships that the poor endura. In his own private life he was the honest, industrious and peaceable laboring man. In what he said in court before sentence he was respectful and decorous. His language and conduct since has been irreproachable. As there is no evidence that he knew of a preparation to do the specific act of throwing the bomb that killed Degan, he does not understand even now that general advice to large masses to do violence makes him re-aponsible for the violence done by reason of that advice, nor that being joined with others in an effort to subvert law and order by force makes him responsible for the acts of these others tending to make that effort

"In short, he was more a misguided enthuriast than a criminal, conscious of the borrible nature and effect of his teachings and of his responsibility therefor. What shall be done in his case is partly a question of humanity and partly a question of state policy, upon which it seems to me action on the part of your excellency favorable to him a favorable. I attach this to a copy of his petition to your excellency, and refer to that for what he says of the change that has come upon himself. Respectfully yours, etc., "JOSEPH E. GARY."
